Training Calendar ~ Jan – May 2020

Date, Time & Location	PRESENTATION
<p>Wednesday, February 12th Rescheduled to Friday, March 6th 9:30 -12:00 Nova Southeastern University, 4850 Millenia Blvd, Orlando, Rm 122 Ann Pimentel-Kerr The Children's Advocacy Center CAC Specialist</p>	<p align="center"><u>BROKEN PLACES ~ Screening & Discussion</u></p> <p>BROKEN PLACES documentary explores why some children are severely damaged by early adversity while others are able to thrive. To help answer this question, we updated a few of the stories of children growing up in difficult circumstances that we filmed decades ago. It turns out that some of these children were so scarred by abuse and neglect that they are now in mental institutions, correctional facilities, or drug rehabilitation centers. A few died prematurely. However, there are others who managed to overcome comparable childhood stress and are now healthy, self-sufficient adults. Viewers are given a unique time-lapse perspective, witnessing how a few of these troubled children evolved into the adults they are today. By revisiting some of the abused and neglected children we profiled decades ago, we're able to dramatically illustrate how early trauma shaped their lives as adults. BROKEN PLACES interweaves these longitudinal narratives with commentary from a few nationally renowned experts to help viewers better understand the devastating impact of childhood adversity as well as the inspiring characteristics of resilience.</p>
<p>Friday, February 21st 9:30 -12:00 Nova Southeastern University, 4850 Millenia Blvd, Orlando, Rm 122 Ann Pimentel-Kerr The Children's Advocacy Center CAC Specialist</p>	<p align="center"><u>CRACKED UP ~ Screening & Discussion</u></p> <p>In Cracked Up we witness the effects adverse childhood experiences can have across a lifetime through the incredible story of actor, comedian, master impressionist and Saturday Night Live veteran, Darrell Hammond. Behind the scenes Darrell suffered from debilitating flashbacks, self-injury, addiction and misdiagnosis, until the right doctor isolated the key to unlocking the memories his brain kept locked away for over 50 years. Cracked Up, director Michelle Esrick, creates an inspiring balance between comedy and tragedy helping us understand the impact of toxic stress and childhood trauma in a new light, breaking down barriers of stigma and replacing shame with compassion and hope.</p>
